Sheep & Goats Producer Needs Assessment

The purpose of this survey is to ask sheep and goat producers their preference on extension program delivery of production and management topics of importance, identify challenges to raising and marketing their animals/products and to learn more about farm and ranch demographics. Other extension professionals across the nation have shown amazing support in this and we plan to share the information with our colleagues at the conclusion of the survey. The goal is to close the survey **July 31, 2021** or assess the number of responses if we would need to extend it.
